

ICAN

Infection Prevention and Control Short Courses

👉 Basic Decontamination and Sterilisation Course (SSD) 👈

Background:

ICAN has established a short course-training programme in decontamination and sterilization for individuals interested in pursuing this field as a career. The course aims at developing and improving the skills and abilities of SSD workers to deal competently with decontamination and sterilization in their everyday jobs. The course is tiered into three modules (Basic; Intermediate & Advanced) allowing students to exit the training at various stages of competency depending on their ability. The modules are set according to recognised national and international standards and taught by recognised experts in the field.

- ✓ 5-day Course
- ✓ Contact Session
- ✓ Formal Examination
- ✓ R8,000.00
- ✓ CPD Certificate

Course Content:

- | | |
|-------|--|
| Day 1 | Pre Knowledge Quiz-What do you already know?
Legislation governing SSD
Hygiene
Risk Assessment in the SSD
CSSD Cycle and Workflow |
